

Coming Spring 2016!!!

As part of the “Knight Experience” UCF strives to develop students to become active social and global citizens that value themselves and those around them. Additionally, as a Knight you should be able to understand and appreciate the diverse experiences and perspectives you will experience in and out of the classroom. **iConnect** was created to strengthen and engage the campus community, by providing opportunities for students to learn from each other, embrace differences and recognize shared experiences. **iConnect** uses interactive exercises and thought-provoking discussion to explore various social topics that impact today’s college student. If you are interested in having a dynamic experience that allows you to actively discuss current issues, develop skills and connect with your UCF campus, consider participating in the **iConnect** program Spring 2016!!!
